- Jan. 16 Marv & Rose Horsman, Folmer & Jane Carlsen What was the world record for the most snowfall in a 24-hour period? 76 inches in Silver Lake, Colorado

Our sympathy to the Dutton family on the passing of Ed . Ed passed away December 22. His Funeral was held at our church on December 27th.

Those we love never die, just depart before we do.

Paragraphs from the Parish Nurse

First, I'd like to thank Rose Horsman for all the years she has served as our Parish Nurse (Faith Community Nurse). I have had the honor of working with her closely for the past couple of months. She has put me in contact with a great group of Faith Community Nurses that I can use as resources as well. I appreciate all that Rose has done for our church and for me as I learn this role. How many times a year does the sun set and rise in the Arctic? once

I am currently enrolled for an online Faith Community Nursing class which starts in February, and I will complete this in April. If you do not hear a lot from me until then, please know it is because I am waiting until I complete this class and have obtained all of the information.

A little bit about me- I graduated from Winona State University in 2004 with my Bachelors of Science in Nursing. I am currently working at the Mayo Clinic in the department of Nephrology and Hypertension, where we specialize in kidney disease and high blood pressure. I am very comfortable checking blood pressures, and plan to continue this service. I am also interested in hearing from the congregation. The largest iceberg ever recorded worldwide was 207 miles long and 62 miles wide. Where was it found? In the Arctic

If you valued certain services that Rose provided, that you want to make sure are continued, please let me know. Likewise, if there is something new that you would like to see from a Faith Community Nurse, please let me know. I'm not necessarily looking to change anything, just wanting to reach out to you to make sure I am meeting your needs the best way I can.

Thank you,

Amanda Frodermann, RN
